WORK EXPERIENCE

Stony Brook Campus Residences DoIT , Stony Brook, NY

September 2025 - Current

Programmer/IT Technician Intern

- IT support processes and script solutions for recurring technical infrastructure issues, enhancing system reliability.
- Develop and maintain internal web applications (React) used for data tracking and university resource management.
- Provided direct technical support and advisory services, including the imaging and deployment of computer systems across campus, enhancing operational efficiency.

JP Morgan Chase & Co, Jersey City, NJ

July 2025 - August 2025

Data Engineering Intern

- Engineered a Python automation tool to parse Excel datasets (>10,000 rows) and dynamically generate complex SQL queries, significantly reducing manual data processing time.
- Conducted in-depth data analysis to identify critical trends, ensure data integrity, and support data-driven decision-making processes across various projects.
- Engineered and optimized data structures and workflows, contributing to the development of more robust, scalable, and accessible data solutions.
- Created workflows to optimize data retrieval and manipulation before inserting the data into the internal database.

The Home Depot, Queens, NY

April 2025 - August 2025

Gardening Sales Associate

- Provided knowledgeable and friendly customer service to assist with gardening needs and product selection.
- Quickly trained in gardening products and practices to support department operations.
- Communicated clearly and professionally in a fast-paced environment, contributing to a collaborative and efficient team culture.

HANAC Youth Employment Services, Queens, NY

July 2024 - August 2024

Data Entry Intern

- Managed and maintained records for 100+ interns using advanced Excel functions, ensuring efficient tracking and accurate payroll processing.
- Streamlined data input workflows and implemented validation checks, reducing clerical errors and enhancing overall data quality.
- Provided administrative support by managing printers, archiving documents, and organizing files to ensure a smooth and efficient office environment.

ICATT Professional Services, Inc., Virtual

February 2024 - March 2024

IT & Marketing Intern

- Conducted market research and developed reports on 20+ small businesses, contributing to ICATT's digital strategy and growth planning.
- Participated in front-end development and user testing of internal web applications, enhancing both functionality and user accessibility.
- Collaborated with marketing and tech teams remotely, contributing to digital transformation initiatives and cross-platform integration.

Wright's Resumes and Connections, Virtual

April 2023 - August 2023

Mobile App Developer Intern

- Designed and structured intuitive app interfaces for local hiring platforms, improving navigation and accessibility for job seekers.
- Identified and resolved bugs through collaborative testing and debugging sessions, significantly boosting app performance and reliability.
- Worked with a remote development team to deliver feature updates that aligned with evolving user and business needs.

EXTRACURRICULARS

DIIT Workplace Challenge

- Collaborated with the NYC Department of Education's Division of Instructional and Information Technology to design a scalable solution for improving student record-keeping systems.
- Researched and implemented efficient methods for organizing, storing, and tracking student records to improve accessibility and security.
